

data.aws\_ami.ec2-user

aws\_key\_pair.first-key

aws\_security\_group.allow\_tls

aws\_instance.web

```
graph LR; A[aws_instance.web] --> B[data.aws_ami.ec2-user]; A --> C[aws_key_pair.first-key]; A --> D[aws_security_group.allow_tls];
```

The diagram illustrates a dependency structure where a single resource, `aws_instance.web`, is the source for three other resources. Arrows point from `aws_instance.web` to `data.aws_ami.ec2-user`, `aws_key_pair.first-key`, and `aws_security_group.allow_tls`.
